## Project Guide - Small Accessory Building - 120 square feet or less (poge 11

## Zoning Requirements

Accessory Buildings may be constructed prior to Primary Building, but only if sufficient area for a Primary Building is identified within the plan.

| LOT AREA REQUIREMENTS - to construct Small Accessory Building: |  |
| :--- | :--- |
| TA | 5 acres, unless subdivided into 3 lots or more (3 acres); |
| R-1 | 20,000 square feet; |
| R-2 (existing development) | 8,700 square feet; |
| R-2 (future development) | 9,000 square feet; |
| R-3 | 7,000 square feet. |

## LOT WIDTH REQUIREMENTS - to construct Small Accessory Building:

TA
150 feet;
R-1
80 feet;
R-2 (existing development) 66 feet;
R-2 (future development) 75 feet;
R-3 50 feet.

SETBACKS - distance from property boundaries for Small Accessory Building:
*SETBACKS MUST BE FLAGGED PRIOR TO SUBMITTAL OF APPLICATION - APPLICATION WILL NOT BE APPROVED UNTIL SETBACKS ARE VERIFIED:

- Flag/identify all exterior walls of project.
- Flag/identify property corners and boundaries.

|  | Front/Street Side | Side | Rear |
| :---: | :---: | :---: | :---: |
| TA | 100 feet; | 15 feet; | 15 feet; |
| R-1 | 50 feet; | 5 feet; | 5 feet*; |
| R-2 (existing development) | 50 feet; | 5 feet; | 5 feet*; |
| R-2 (future development) | 50 feet; | 5 feet; | 5 feet*; |
| R-3 | 50 feet; | 5 feet; | 5 feet*. |

*If an accessory building is located in the rear yard and there is an alley adjacent to the property, the setback may be reduced to zero ( $0^{\prime}$ ) if the accessory building does not have a vehicular alley entrance perpendicular (facing) the alley line.

## LOT COVERAGE - maximum lot coverage of Small Accessory Building:

TA
R-1
$\mathrm{R}-2$ (existing development)
R-2 (future development)
R-3

5\% - provided that total lot coverage of all structures does not exceed 15\%;
$10 \%$ - provided that total lot coverage of all structures does not exceed $30 \%$;
$10 \%$ - provided that total lot coverage of all structures does not exceed $45 \%$;
$10 \%$ - provided that total lot coverage of all structures does not exceed 45\%;
$10 \%$ - provided that total lot coverage of all structures does not exceed $50 \%$.

## Project Guide - Small Accessory Building - larger than 120 square feet $\{$ poge 2$\}$

Construction/Design Requirements
The following standards apply to Small Accessory Buildings in any zoning district:

## HEIGHT REQUIREMENTS:

- 15' Maximum overall height for Small Accessory Buildings in all zones.

SPACING - FROM OTHER BUILDINGS:

- At least $9^{\prime}$ spacing is required between any and all detached structures.

FOOTINGS - are not required for Small Accessory Buildings 120 square feet or less:

FRAMING - inspection to be made before wall coverings/gypsum board are applied:

- All openings in bearing wall will have headers.
- Openings 4 foot or more in non-bearing walls will have headers.
- Headers will have $11 / 2$ inch of bearing on each end for the full width of header.
- In bearing walls, notches shall not exceed 25 percent of width, holes shall not exceed $40 \%$ of width.
- In non-bearing walls, notches shall not exceed $40 \%$ of width, holes shall not exceed $60 \%$ of width.

PLUMBING - IPC and IRC 2012 STANDARDS APPLY - if any included in project.

- Consider purchasing Dewalt Plumbing Code Reference Book - affordable reference which addresses most important and commonly referenced IPC and IRC regulations. Available at City Hall
